

# 5 Days to a Better School Year

## Day 5

What academic skill did many of your students struggle with this past year that you would like to teach differently next year?

Examples: main idea, fractions, rounding, author's purpose etc.

---

Why do you think your students struggled with this so much? What mistakes did they make repeatedly?

---

---

Spend some time researching how other teachers have taught this skill. Find some resources and activity ideas that you could use this upcoming school year. Brainstorm some activity ideas below.

---

---

---

---

---

---

How will you teach this skill differently next year? How will you organize the resources that you found so that you don't forget about them?

---

---

---
